Andrew J. Garrett, Esq.,
City Engineer,
Plainfield, N.J.

My dear Mr. Garrett:

You are probably aware that Mr. Sutcliffe died recently, and I am sorry to say that Morgan is now an inmate of the Hudson River State Hospital. Under these conditions I have decided that it would be useless for us to bring any action against the City of Plainfield on the Morgan contract or in Mr. Wilbur's behalf. Can you dispose of the tools for us in Plainfield, or in the event that you do not care to undertake this, can you arrange to have them shipped here. Kindly advise me.

Yours truly,

H. C. Barker.

under the State law, for liquor merchants in Plainfield to obtain signers each year to their applications for renewals of their present licenses, I would state my opinion as follows:

By laws of 1891, page 12, and by revision of Plainfield Ordinances of 1912, page 103, section 24, it is plain that it is not necessary for the old licensees to obtain a renewal of their signers.

The Common Council have full power to renew these licenses from year to year without obtaining signers, provided the application is accompanied by the usual bond duly renewed.

by State Board

Board of Health
of the State of New Jersey.
Trenton, Dec. 17, 1912

His Honor the Mayor,
Plainfield,
New Jersey.

Sir:

Your attention is directed to the requirements of Chapter 72 of the Laws of 1900 and the various amendments thereto which provide that all extensions to your sewer system must be approved by the State Board of Health prior to the construction

DEC 23 1912

of such extensions.

Your attention is also directed to the fact that it is unlawful for any person, corporation or municipality to build any sewer, drain or sewerage system, from which it is designed that any sewage or other harmful or deleterious matter, solid or liquid, shall flow into any of the waters of this State, so as to pollute or render impure said waters, except under such conditions as shall be approved by the Board of Health of the State of New Jersey.

This letter is sent to you because it has been found, during the past year, that sewers and extensions thereto have been constructed in many places without the approval of the State Board of Health first having been obtained. Will you kindly call this matter to the attention of your municipal engineer or other person responsible for the construction of sewers in your municipality?

Very truly yours,

R. B. Fitz Randolph
Chief

Councilman Holt, on behalf of the Special Committee on Joint Sewers, presented report, which was read. Also presented a number of papers in connection with the Joint Sewer, and moved the report and papers be referred to the Council of 1913. So ordered.

The Report is as follows:

The Special Committee on Joint Sewers report as follows:

The joint committee has reached a unanimous agreement both as to the plan and specifications of the proposed joint sewerage system and also in respect of the main features of a joint contract for the construction and maintenance of the same.

Such plans and specifications—already adopted by each of the Councils of the three municipalities—have been formally approved by the State Board of Health.

DEC 30 1912

The terms of the proposed contract, substantially as detailed in the form of ordinance presented herewith, are submitted for the approval of the incoming Council.

Attention is drawn to the necessity of prompt action, inasmuch as the Boroughs of North Plainfield and Dunellen are unable to make further progress with their proceedings in the matter until the form of an ordinance authorizing the joint sewerage contract has been mutually approved by all.

Comm
Corporation
Council.

Following communication was received
from the Corporation Counsel which was
read and referred to the Street Lighting
Committee:

January 13, 1913.

To the Mayor and Common Council of the City
of Plainfield.

Dear Sirs:-

For your information I enclose
a copy of the old agreement made by the
late Corporation Counsel Craig A. Marsh
with the old Plainfield Gas & Electric Light

JAN 21 1913

Co. dated Nov. 28, 1898 and assumed by the Public Service Corporation when they bought out that Company. If it is your opinion that the City is not properly served under the contract and that we are not getting either the quality or quantity of lights desired, the contract itself provides that the City shall be given as good light as that furnished by the Co. to any private citizen; an appeal also lies to the State Board of Utilities, who have full power to see that we get the best service.

The contract also provides for free lights for all public buildings, both those now in existence and also including any hereafter to be erected including a city hall, when such should be built; but most important of all, the contract provides an option by which the City may purchase the plant in 1923, or 1928 and every five years thereafter forever.

It is a contract that the City should not give up. It was made by our careful and far-seeing lawyer, Mr. Marsh, and the Public Service Corporation has many times attempted to do away with it. If the City desires better lights and better service it can acquire same without doing away with this contract or making a new one. The old contract contains ample remedies for all our troubles.

Respectfully yours,

William M. Stillman

Corporation Counsel

All of the said twenty (20) inch siphons shall be of cast iron.

FEB 3 1913

The said eight (8) inch force main shall be of cast iron.

The said plant, works or station for the treatment, rendering and disposal of sewage shall consist of a preliminary settling tank in two units, a sludge-drying bed, a sprinkling filter in two units, with double dosing tank, a final settling tank in two units with a small sludge pumping station, and a laboratory.

Each of these units shall be approximately five thousand (5000) square feet in surface area and about twenty-one (21) feet deep, and shall be divided into three double compartments. Each of said units shall be of ample capacity to provide for an average daily flow of two (2) million gallons of sewage in the upper or sedimentation compartment. The sludge compartment of the said tank shall have a combined total capacity for at least one year's storage of sludge, and shall be constructed entirely of reinforced concrete banked around the outside with earth, and shall be provided with a system of cast-iron pipes for the removal of sludge.

7. That after the completion of the said works and improvements, and upon the written consent of the engineer employed by the said Joint Meeting, one or more of the said municipalities may commence to use the works and improvements hereby authorized in advance of any other of such municipalities, provided, however, that the said municipality or municipalities so using the same shall assume and bear the whole cost and expenses incurred in connection with or resulting from the maintenance and operation of the said works and improvements during the period that it or they so make partial or exclusive use thereof.

8. The President announced that the members of the Common Council will meet in the auditorium of the High School on Friday

Friday Evening, February 7, 1913.

Pursuant to public notice, the members of the Common Council held a public meeting in the auditorium of the Plainfield High School this evening, to hear arguments for and against the granting of the liquor licenses applications now before the Common Council.

President Clay called the meeting to order, and stated the meeting was called in order to give the people of Plainfield an opportunity to speak for and against the applications for liquor licenses now pending before the Common Council; the real question being, whether the existing conditions shall be changed by the granting of new applications whereby the number of new licensed saloons and liquor houses shall be increased. For the purpose of conducting this meeting in an orderly manner, opportunity will first be given to any persons who may wish to speak for such change of conditions or in favor of any particular application; afterwards, opportunity will be given to any who wish to speak against the change of conditions or against any particular application.

The members of the Common Council desire to give every one present who wishes to speak full opportunity to speak on the subject. Our opinion is that ten minutes will be a reasonable time for a speaker to express his views, therefore the time of each speaker will be limited to ten minutes.

Judge Am. Newcorn appeared on behalf of Christian Cloekler, John S. Clark and Morris Latzko, for the granting of their applications, and presented petitions with respect thereto.

Chairman Clay asked if there were any other persons who wished to speak in favor of a change in the existing conditions or in favor of any particular application. No one else appearing, Chairman Clay stated, in accordance with the plan adopted, opportunity would now be given to any persons who wished to speak against a change in the existing conditions or against any particular application.

The following persons appeared and expressed their views against a change in the present conditions:

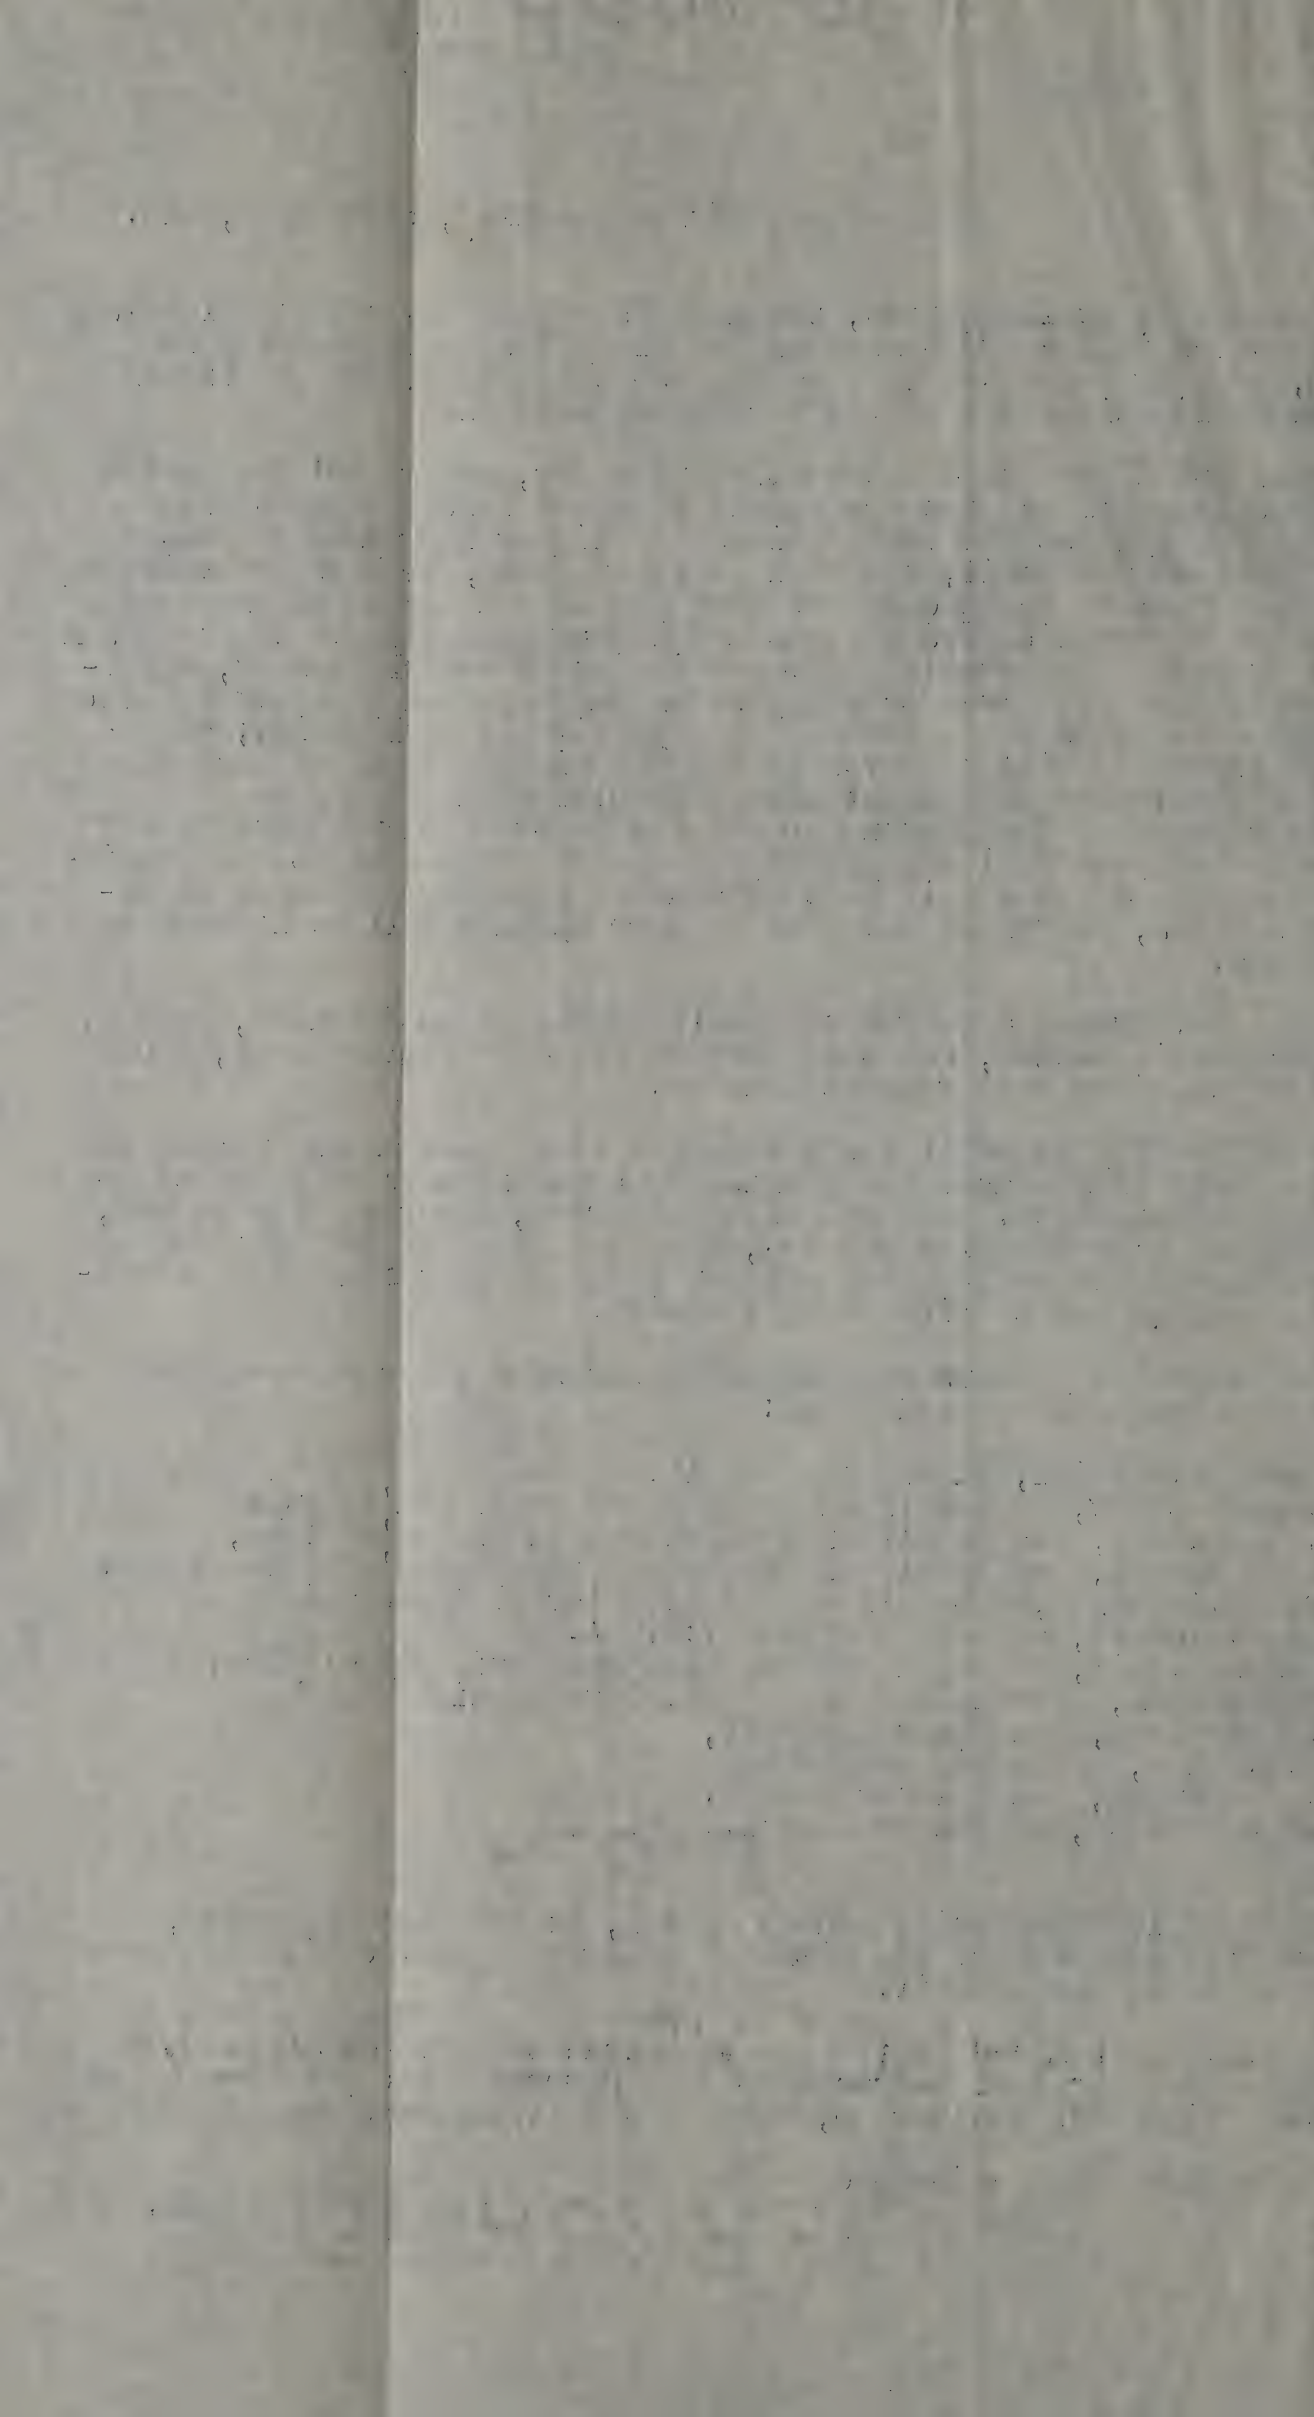

George P. Mellick, in his own behalf.
R. Henry Depew, on behalf of the Federation of Men's Clubs.
E. E. Parvin, on behalf of the Federation of Men's Clubs,
A. M. Harris, on behalf of the Federation of Men's Bible Classes.
Dr. C. M. Anderson, on behalf of the Ministerial Association.
Jas. M. Kimball, on behalf of the Y. M. C. A.
Thomas C. Vail, on behalf of the West End Civic Association.
Reuben Knox, on behalf of the Mt. Olive Baptist Church.
J. H. Harrison, on his own behalf,
Wm. S. Tyler, on his own behalf.
H. C. Runyon, on his own behalf.
Isaac Houston, on his own behalf.

After ample opportunity had been given, no one else appearing, Chairman Clay stated that the views so clearly expressed will be given consideration by the Council.

Dr. A. M. Harris moved that it is the sense of this meeting that we appreciate the opportunity granted by the Council for a public hearing in a place like this auditorium, which was duly seconded and adopted.

The meeting then adjourned.

The letter mentioned in your communication of January the 9th was a circular letter sent out from this office, and related to Plainfield only in a general sense.

The sewer extensions mentioned in your letter were approved at the same time that the joint disposal plant was acted upon, and I think that you will find upon investigation that the approval of the joint disposal plant also includes the approval of the sewer extensions.

Yours very truly,

Report of Committee

Reported back communication from W. A.

Coddington, Esq., attorney for heirs and estate of John S. Harberger, deceased, with the following report:

"Your committee herewith reports back petition of William A. Coddington Esq., attorney for the heirs and estate of John S. Harberger, deceased, with the statement that the natural drainage of a small area of land west of Plainfield and Gerard Avenues is toward the location of the ditch complained of.

The original grade maps, made 43 years ago, show that the lowest point in West Front Street at that time was at or near the present location of the ditch.

As these facts seem to indicate that the city was not responsible for creating the ditch, but that there has been a drainage depression at this point from a time antedating the city records, we recommend that the petition be referred to the Corporation Counsel, with this report, for his opinion as to the City's obligations, if any, in the matter."

On motion the recommendation was adopted, and a copy of the report ordered sent to Judge Coddington.
